ActiveDocs Opus Suite System Requirements

DOCUMENT AUTOMATION SOFTWARE

ActiveDocs Opus Composition Server

ActiveDocs Opus Composition Server can coexist with many other server applications. ActiveDocs recommends testing coexistent server applications.

Software

Platforms (any of):

- Microsoft Windows Server 2022
- Microsoft Windows Server 2019
- Microsoft Windows Server 2016

Application Servers (all of):

- Microsoft Internet Information Server (IIS)
- Microsoft SQL Server 2014 / 2016 / 2017 / 2019

Optional Software:

- Microsoft Office Word 2016 64-bit / 2019 64-bit Volume License Edition
    - For server-based printing or for conversion from Microsoft Word Office Open XML to other document formats. Only required if using Microsoft Office Word for file format conversion.

Hardware

In addition to the minimum hardware requirements for Microsoft Word and the operating system, consider the following:

- Number of users
- System load (peak and troughs)
- Complexity of documents
- Types of tasks e.g., batch document assembly, printing, file format transformation, content storage
- Disaster recovery planning
- Required system availability
- Other applications or services running on the server

ActiveDocs Opus Suite
System Requirements

DOCUMENT AUTOMATION SOFTWARE

ActiveDocs Opus Designer / ActiveDocs Opus Client

Software

Platforms (any of):

- Microsoft Windows 10

Other Software (all of):

- Microsoft Office Word 2016 / 2019
    - Requires a full installation of Microsoft Office Word
    - Microsoft Office 64-bit editions **are** supported
